EDUCATION

University College London
MSci Biochemistry

London, United Kingdom
Graduation Date: Jun 2027

Habib University
BSc Computer Science

Karachi, Pakistan
2022–2023 (GPA: 3.5/4.0)

- Transferred to UCL.

WORK EXPERIENCE

Virtual Intern — IEUK

Jul 2025 – Jul 2025
London, United Kingdom

- As a product manager, I built a 6-month roadmap from user feedback, boosting retention by 15% and engagement by 20%.
- Led a team of 3 engineers and 1 UI/UX designer to deliver 5 features while maintaining platform stability.
- Prioritized initiatives, raising user satisfaction by 25% and enabling early monetization.

Python Boot Camp Lead — UCL Computer Science Society

Sep 2024 – Jun 2026
London, United Kingdom

- Planned and organized 9-week Python lessons for undergraduate and postgraduate students from diverse backgrounds.
- Arranged challenging yet engaging problems and an end-of-term project for students, receiving positive feedback.
- Lessons included data structures and algorithms such as lists, dictionaries, and sorting algorithms.

Data Science Intern — UCL

Jun 2024 – Aug 2025
London, United Kingdom

- Created an R package to analyze microbiome data.
- Coded statistical functions and used identity matching to analyze data of different microbes and phylogeny.
- Tech stack: R.

Management Lead — Google Developer Student Club

Aug 2022 – Jun 2023
Karachi, Pakistan

- Hosted and organized workshops on Flutter, HTML, JavaScript, and Object-Oriented Programming, guiding 600+ participants at each session.
- Organized one of the largest hackathons in the country, featuring intensive programming challenges for over 500 computer science students, tailored for both beginners and advanced programmers.
- Started an initiative to introduce women in rural areas of Pakistan, especially housewives, to technology and programming, empowering and promoting women in STEM.

PROJECT EXPERIENCE

NeurIPS Open Polymer Prediction — Kaggle

Jun 2025 – Sep 2025
London, United Kingdom

- Built and optimized models to predict five polymer properties in the Kaggle NeurIPS Open Polymer Prediction Challenge.

- Implemented Linear & Non-linear SVR, Random Forests, and Graph Neural Networks (GNNs) to capture both descriptor-based and structural features.
- Utilized RDKit for molecular feature extraction, NumPy and pandas for data processing, and PyTorch Geometric for GNN development.
- Gained hands-on experience in feature engineering, model evaluation, and performance comparison across traditional ML and deep learning approaches.

Machine Learning — UCL

Feb 2025 – Apr 2025
London, United Kingdom

- Applied regression and classification models (Polynomial, LASSO, Logistic) to synthetic, genetic, and automotive datasets, focusing on regularization, interpretability, and cross-validation.
- Explored polynomial and logistic regression with regularization techniques on real-world datasets, emphasizing model selection, feature scaling, and reproducibility.

Prediction of Sequence & 3D Structure of Proteins — Habib University

Jan 2023 – Jun 2023
Karachi, Pakistan

- Successfully predicted amino acids lying in the layers of proteins with more than 90% accuracy, using only 4 out of thousands of amino acid properties.
- Selected to represent my country internationally at the Undergraduate Research Symposium.
- The program utilized data structures and algorithms such as Dijkstra's algorithm, graphs, trees, dictionaries, and bubble sort.

AWARDS AND HONOURS

- **Scholarship:** Awarded a 150% scholarship at UCL (awarded to 10 students worldwide).
- **Scholarship:** Awarded a 100% scholarship at Habib University.
- **Honours Roll:** Achieved a perfect GPA of 4.33/4.33 in high school.
- **Protein Purification Project:** Attained 1st position at UCL for the BioSciences module (data analysis using Python and Excel).
- **Scholarship:** Awarded a 100% scholarship at Cedar A-level College.

TECHNICAL SKILLS

Proficient	Python (NumPy, PyMOL, Matplotlib, Graphviz, scikit-learn, Jupyter, Colab, TensorFlow, PyTorch), MATLAB ; Machine Learning, Statistics, Data Analytics, and Protein Dynamics .
Experienced	C++, HTML, SQL, R.
