

Wira Masooma Zaidi

London, UK | wiramasoomazaidi@gmail.com | [linkedin.com/in/wira-masooma-zaidi/](https://www.linkedin.com/in/wira-masooma-zaidi/)

SKILLS

Proficient in Python (NumPy, PyMol, Matplotlib, Graphviz, Scikit-learn, Jupyter, Colab, TensorFlow, PyTorch, scikit-learn, ML, AI, Statistics, Data Analytics MATLAB) and Protein dynamics. Experienced with C++ , HTML, SQL, R.

EDUCATION

University College London <i>MSci Biochemistry</i>	London, United Kingdom <i>Graduation Date: Jun 2027</i>
Habib University <i>BSc Computer Science 2022-2023 (GPA: 3.5/4.0). Transferred to UCL.</i>	Karachi, Pakistan

WORK EXPERIENCE

IEUK <i>Virtual Intern</i>	United Kingdom <i>Jul 2025 - Jul 2025</i>
- As a product manager I built 6-month roadmap from user feedback, boosting retention 15% and engagement 20% - Led a team of 3 engineers and 1 UI/UX designer to deliver 5 features while maintaining platform stability - Prioritized initiatives, raising user satisfaction by 25% and enabling early monetization	
UCL Computer Science Society <i>Python Boot Camp Lead</i>	London, United Kingdom <i>Sep 2024 - Jun 2026</i>
- Planned and organized 9 week python lessons for undergraduate and postgraduate students from diverse backgrounds. - Arranged challenging yet engaging problems and end of term project for students gaining positive feedback. Lessons include data structures and algorithms like lists, dictionaries and sorting algorithms	
UCL <i>Data Science Intern</i>	London, United Kingdom <i>Jun 2024 - Aug 2025</i>
- Creating an R package to analyse microbiome data. - Coding statistical functions and using identity match to analyse data of different microbes and phylogeny. - Tech stack: R.	
Google Developer Student Club <i>Management Lead</i>	Karachi, Pakistan <i>Aug 2022 - Jun 2023</i>
- Hosted and organized workshops about flutter, HTML, javascript and Object Oriented Programming guiding 600+ participants at each session. - Organized one of the largest hackathons with intensive programming challenges in the country with over 500 computer science students tailored for both beginners and advanced programmers. - Started an initiative to introduce women in rural areas of Pakistan, especially housewives, to technology and programming, empowering and promoting women in STEM.	

PROJECT EXPERIENCE

Kaggle <i>NuerIPS Open Polymer Prediction</i>	London, United Kingdom <i>Jun 2025 - Sep 2025</i>
- Built and optimized models to predict five polymer properties in the Kaggle NeurIPS Open Polymer Prediction Challenge. - Implemented Linear & Non-linear SVR, Random Forests, and Graph Neural Networks (GNNs) to capture both descriptor-based and structural features. - Utilized RDKit for molecular feature extraction, NumPy and pandas for data processing, and PyTorch Geometric for GNN development.	

- Gained hands-on experience in feature engineering, model evaluation, and performance comparison across traditional ML and deep learning approaches.

UCL

London, United Kingdom

Machine Learning

Feb 2025 - Apr 2025

- Applied regression and classification models (Polynomial, LASSO, Logistic) to synthetic, genetic, and automotive datasets, focusing on regularization, interpretability, and cross-validation.
- Explored polynomial and logistic regression with regularization techniques on real-world datasets emphasizing model selection, feature scaling, and reproducibility.

Habib University

Karachi, Pakistan

Prediction of Sequence & 3D Structure of Proteins

Jan 2023 - Jun 2023

- Successfully predicted amino acids lying in the layers of proteins with more than 90% accuracy using only 4 out of thousands of amino acid properties.
- Selected to represent my country internationally in the Undergraduate Research Symposium.
- The program consisted of Data structures and Algorithms such as Dijkstra Algorithm, Graphs, Trees, dictionaries and Bubble-Sort etc.

AWARDS AND HONOURS

Scholarship: Awarded 150% Scholarship at UCL (Awarded to 10 in the World).

Scholarship: Awarded 100% scholarship at Habib University.

Honours : Awarded a perfect GPA , 4.33/4.33, in high school.

Roll

Protein Purification Project : Attained 1st position in UCL for BioSciences module. (Data anaylsis using python/excel).

Scholarship: Awarded 100% Scholarship at Cedar A-level College.
